Wired connection

The soundbar does not have a built-in battery, please insert the USB plug into the USB port on the desktop, laptop, tablet, power bank, etc.

Wired Connection via 3.5mm Plug

- 1 Wired mode: the soundbar defaults to this mode when it is turned on.
- 2 When the Bluetooth Indicator light is off, it means the wired mode is on.
- 3 Insert the 3.5mm Audio Cable into the "AUX IN" jack at the back of the soundbar and plug the other end into your device.

Note:

- When want to use wired mode, please make sure the soundbar is not in Bluetooth mode.
- Quickly press the volume knob twice to switch from Bluetooth mode to wired mode.

4

Wireless connection via Bluetooth

1. Switch to Bluetooth mode

- 1 Press the Volume Knob twice quickly to turn on Bluetooth mode.
- 2 When the Bluetooth Indicator flashes blue/white, it means the Bluetooth pairing mode is on.

2. Pair with your device

- 1 Turn on the Bluetooth of your device and search for nearby devices.
- 2 Find "SK100" in the search results and tap to connect.

Once connected, a beep will be heard and the Bluetooth indicator (blue) will flash every 5 seconds.

Note:

- Make sure the soundbar isn't connected to other devices, otherwise please disconnect this device.
- If you can't find other connected devices, please press and hold the knob for 3 seconds to return to the Bluetooth pairing mode (Bluetooth Indicator flashes blue/white).
- Keep the soundbar and your device within 16ft/5m.

5

Attention

Troubleshooting of Sound

If there is no sound comes out from the soundbar, please try the following operations:

- Rotate the volume knob clockwise to raise the volume of the soundbar.
- Adjust the volume on your device.
- Press the volume knob to resume in case the soundbar paused.
- Re-insert the USB plug

Troubleshooting of Bluetooth Connection

- Make sure that the soundbar Bluetooth pairing mode is on (Bluetooth Indicator flashes blue/white).
- Make sure the Bluetooth of the soundbar is not connected by other devices.
- Unplug the 3.5mm Audio Cable from your device.
- Delete "SK100" memorized on your device, then search for "SK100" and connect again.
